p-Anisic Acid

99%

p-Anisic acid, also called 4-methoxybenzoic acid or draconic acid, is one of the isomers of anisic acid. It appears white to slight yellowish powder. p-Anisic acid is found naturally in anise. It is also prepared by chemical synthesis from natural anethole. p-Anisic acid has antiseptic properties. It is widely used as an intermediate in the preparation of more complex organic compounds.

Substance Identification

| | |
|----------|--|
| Synonyms | Draconic Acid para-Methoxybenzoic Acid 4-Anisic acid 4-Methoxybenzoic acid |
| CAS | N/A |
| EINECS | 202-818-5 |

| | |
|-------------------|--------|
| FEMA | N/A |
| HS.CODE | 291800 |
| Molecular Formula | C8H8O3 |
| Molecular Weight | 152.15 |

Application & Uses

- used as a pharmaceutical intermediate to produce 3-Amino-4-methoxybenzoic acid and 4-methoxybenzoyl chloride etc.
- used as fine chemical raw material to produce aromatics, cosmetics, etc.
- used in many organic syntheses
- used as intermediate in the dye industry

Features & Benefits

- Dissolve in alcohol, ether, chloroform and ethyl acetate, slightly soluble in hot water, water solubility of 20 DEG C for 0.3 g/L

Sales Specification

| ITEM | VALUE |
|--------------------------|----------------------------------|
| Appearance | White to slight yellowish powder |
| Odor | Sweet flower odor |
| Content, @HPLC, % | 99 min |
| Content of Water, % | 1 max |
| Arsenic (As), mg/kg | 3 max |
| Heavy metals (Pb), mg/kg | 10 max |

Package

- Fiber Drum, 25kg net each

GHS Hazard Statements

H-Code no data available

P-Code no data available

Response no data available

Storage no data available

Disposal no data available

S-phrases: S26-S36-S24/25 | R-phrases: R36/37/38

Storage

- flammable materials should be stored in a separate safety storage cabinet or room
- ground all equipment containing material
- keep away from heat
- keep away from sources of ignition
- keep container tightly closed
- keep in a cool, well-ventilated place
