## Camellia Oleifera Oil Refined

Refined

Camellia Oleifera Oil (also called as White tea oil) is transformed from natural tea oil through long-term storage in a specific environment. The natural oil turns its color from golden yellow to light yellow until colorless and tasteless crystal tea oil. The color of white tea oil is transparent and pure. It is the result of natural transformation of color and luster over the years, rather than rapid purification by artificial refining. Thereby it is also called aged white tea oil. It is excellent ingredient to be used for cosmetic products. The pure extracted oil, which contains 86% oleic oil, fits the human body perfectly.

---

*! Note: Camellia Oleifera Oil is extracted from seeds of Camellia Oleifera, it is different between Camellia Sinensis Leaf Extract. Learn more about botanical information via [FRPS](#) or [Medicinal Plant Images Database of HKBU](#).*

## Substance Identification

Synonyms	C.Oleifera   Camellia Oleifera   Oil-seed Camellia   Camellia Oleifera Abel   White tea oil
CAS	N/A
EINECS	607-092-7
FEMA	N/A
HS.CODE	15159000
Molecular Formula	N/A
Molecular Weight	N/A

---

## Application & Uses

Moisture function in the formulas of personal cares and cosmetics.

- Body Care, such as BB cream, soaps
- Hair Care, such as hair conditioners
- Lipsticks
- Makeup, such as makeup removers

## Features & Benefits

- Fits human skin perfectly
- High contains of oleic oil
- Not easy to be deteriorated, oxygenated and evaporated

## Sales Specification

ITEM	VALUE
Appearance	Clear and bright liquid
Acid Value, KOHmg/g	0.2 max
Contents of Oleic acid, GC, %	74 to 87
Contents of Linoleic acid, GC, %	7 to 14
Moisture Content, %	0.1 max
Impurity, %	0.05 max
Solvent Resides	Negative
Heavy Metals, ppm	5 max
As, ppm	2 max
